9.50am	<p><b>Your State Library of South Australia: collections and services</b> <i>Presented by Karen Braidwood</i> <i>Digital Learning Librarian - Public Library Services</i></p> <p><i>Location:</i> Get to know your State Library of South Australia, the collections and services that can help you and your school communities. An overview of the role, collections, and services of the State Library of South Australia. Did you know the State Library provides free access and home access to a wide-variety of eResources that include both full-text articles and abstracts, magazines, scholarly journals, eBooks, databases, indexes, newspapers, encyclopedias and lots more. How to create a free membership and how to access eResources and digital collections to support student research.</p>	<p><b>Non-fiction belongs in the collection</b> <i>Presented by Angela Eckermann</i> <i>Cataloguer and marketing for ALS</i></p> <p><i>Location</i></p> <p>Angela liaises with publishers and school and public libraries, retaining her passion as a qualified teacher and teacher librarian. She is an avid reader and has already read 100 books this year. In her roles at ALS, she sees thousands of books a month and curates the best in topical lists ranging from curriculum areas (see alslib.com/curriculum) to books for events like Easter, Mother's/Father's Day, World Bee Day, Pluto Demoted Day and... far too many to list, but which she will share with us!</p>	<p><b>Accessibility and belonging through catalogue records</b> <i>Presented by Renate Beilharz</i> <i>(SCIS)</i></p> <p><i>Location:</i></p> <p>This interactive session will provide an overview of the content of SCIS catalogue records, focusing on the elements that make up a generic bibliographic record. SCIS records are specifically developed to be used in school libraries, and form an excellent, generic base from which modification to suit local needs can be undertaken. This presentation will consider some options for such modification. Participants are encouraged to ask questions during this session, as this will enable the presenter to tailor exploration to the needs of the group.</p>

How open educational resources (OER) can empower inclusive and engaging education approaches.</b>  <i>Presented by Steven Chang</i></p> <p>Location: Via - ZOOM only</p> <p>Steven's session will build awareness of practical possibilities for using, adapting, and creating open education resources to improve accessible curriculum resourcing in digitally innovative ways. It will showcase avenues for collaborating with higher education institutions to adapt open educational resources tailored for your school's context.</p>	<p><b>Library as Third Space</b>  <i>Presented by Emma Philips, Wilderness School</i></p> <p>Location:          Staff and students have so many demands on their time, so many commitments clamouring for their attention, both at school and home; the school library has the potential to provide them with a third space where they feel welcome and supported – a place to belong and feel relief/escape from those pressures. School libraries can foster a sense of belonging by (as much as possible) striving to create a low-stress environment, where hierarchies are less rigidly enforced and opportunities to connect or disconnect are on hand. Hopefully, in this presentation, I'll be able to provide ideas and possibilities that could work in or be adapted to other school libraries for curating library spaces (both physical and digital) that are accessible and inspire student/staff connection to one another and to the Library.</p>
